### Professional interests

- *Development of IT and ICT solutions for education and students' career guidance.*

Besides creating projects and innovative solutions for learning, Elena Novikova is interested in supporting social initiatives and teachers' supporting programs. Since 2005 Novikova founded a professional network for teachers Edcommunity, which operates and brings together up to 40 thousand teachers from Russia and CIS. Polymedia team provides consulting, methodical and technical support for community members and provides the teachers with opportunity to exchange experiences in use of ICT in the learning process. Thanks to Novikova's active social activities, Polymedia has twice been named "The Best Commercial Company of the Year" in Russian Education.

Elena Novikova is also regularly chosen a Member of the Grand Jury of the Russian professional contest "Teacher of the Year".

- *Development of solutions for visualization control in the situation centers for government.* According to the results of research in this professional sphere, Mrs. Novikova has wrote the book "Situation centers. Experience, status and trends".

Elena Novikova leads Polymedia JSC more than 18 years, providing its dynamic growth and development.
